Serenity™

4-Thread Serger

Take your serging to the next level with the feature-packed Baby Lock Serenity. Enjoy precision stitching with needle stop positioning, digital speed control, and the Drop Feed System for accurate fabric placement. Exclusive features like the Snap-on Needle System make needle changes quick and tool-free, while the patented Compact Overlock Table expands your creative possibilities with specialty attachments and flawless finishes.

Serenity™

4-Thread Serger

Snap-on Needle System

With the Serenity's Exclusive Snap-on Needle System, insert or remove a needle with ease and confidence without the use of tools.

Digital Speed Control

With the touch of a button, the sewing speed can be adjusted to meet your sewing needs.

And with the LED lights, you will always know your sewing speed.

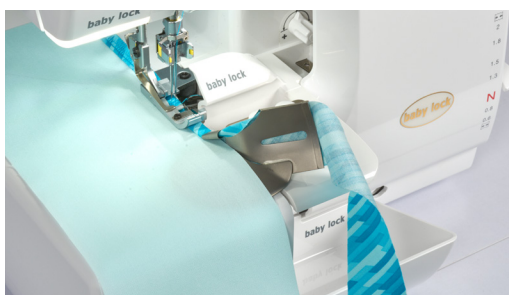

RevolutionAir® Threading

Engage the RevolutionAir® threader, position the needle thread, push the "push to thread" button, and the needles on the Serenity are threaded! Combined with the looper threading system, threading a serger has never been easier or faster.

Needle Positioning Button

Designed for precision sewing, the needle stops up or down, giving you greater control while stitching, pivoting, or placing a single stitch exactly where you need it.

Compact Overlock Table

The Compact Overlock Table opens the door to endless creativity, allowing specialty serger attachments like the Fabric Guide and 36mm Double Fold Bias Binder to be used with a variety of overlock stitches for flawless seams and truly one-of-a-kind finishes.

Automatic Thread Delivery System

Never worry about the threading order or adjusting tensions when selecting the desired stitch type on the Serenity.
